A WORD ABOUT PRICE COMPARISONS

We invite you to compare our entire offering of services, facilities, equipment, merchandise, and professional care with any other funeral home of your choice. We are proud to have a consumer-orientated pricing policy, and believe we provide superior quality services at reasonable prices. Comparisons between funeral homes, however, must be made with care. Some firms may appear at first glance to be less costly because their service charges are lower, yet the burial merchandise they provide is priced higher or the attention to detail is lacking. Our funeral home's focus is on the family and their needs, not only at the time a death occurs but as well as the assistance after the funeral. When you compare the service provided, professional fees, merchandise, and facilities, you will find a Schmidt & Schulta service provides the best value in the area. We welcome the opportunity to discuss and compare our charges.

STEPS TO SELECTING A SERVICE

Most often we hear families say that they want to follow their loved ones wishes. What we first must do is ask ourselves – What do I need to help me thru the grieving process? We all handle death differently. Many will need to view a loved one. While others will need to have a celebration of their loved ones life.

- Burial of embalmed body or cremated remains
- Cremation either immediately or following funeral ceremony

Our licensed funeral directors will transfer the deceased from a local hospital, nursing home or residence into our care. We will provide shelter in our on-site climate-controlled facility while we secure all authorizations and permits, and our Cremation Specialists affiliates (NCW Services, LLC) will perform the cremation. Included at no additional charge is an identification viewing (required by us if the responsible party is not present when we take custody of the deceased), cremation witnessing by immediate family if desired, and a temporary urn (cardboard box). In addition, we will prepare and submit the obituary to local newspapers, publish the obituary on our internet media-sites, and coordinate with clergy, cemeteries, and others who may be involved. We will also prepare and file the death certificates and request any certified copies on behalf of the family as well as provide our staff assistance with any life insurance paperwork. If you would like to arrange a simple cremation, you can use an alternative container or cremation casket. Alternative containers and cremation containers encase the body and can be made of materials such as fiberboard or composition materials (with or without an outside covering). You may also select any of the Wood/Veneered caskets we have in our Casket Price List for cremation.

'Peace of Mind' Cremation Care Guarantee

Schmidt & Schulta Funeral Home's 'Peace of Mind' Cremation Care begins as one of our Licensed Funeral Directors assumes custody of your loved one. If the death has occurred in a health care facility, all identification bands are checked and identity is confirmed with nursing personnel. Should death occur at home or other location, the identity is confirmed with the next-of-kin, responsible family member, coroner or other authority.

Unless circumstances dictate otherwise, we require a personal identification by the next-of-kin, or his or her representative. This can be done at the time we assume custody of your loved one or in the comfort of our Reflection Room at our Care Center.

A non-combustible identification tag is placed on your loved one, and information is logged into our record system. This tag stays on your loved one through the cremation process and is then placed with the cremated remains in the urn or temporary container.

Your loved one is transferred to our on-site climate-controlled secure Care Center for shelterization while we obtain authorizations and permits. At our Care Center the cremation casket or cremation container selected by the family is clearly labeled for identification.

By Wisconsin law, cremation cannot take place until 48 hours after death, nor before the next-of-kin, attending physician, coroner or medical examiner, and registrar have all given their respective certifications or authorizations. This can sometimes take three or four days, especially over a weekend.

One of our Licensed Funeral Directors reviews the cremation documents to insure that all required authorizations and permits have been received, and schedules the cremation with our Crematory. All cremations are performed in our private, interior, on-site crematory, so the deceased never leaves our building or our care.

One of our Licensed Funeral Directors or Cremation Specialists (under the direction of a Certified Cremation Operator or Licensed Funeral Director) assists in placing the cremation casket or container into the cremation chamber and begins the cremation process.

If you wish, you are welcome to view our crematory at any time for a pre-cremation inspection where you will have the opportunity to see that the cremation chamber is clean and empty. If desired, immediate family members may witness the cremation casket or container enter the cremation chamber. A Cremation Specialist will be available to answer any questions you may have.

Following cremation and processing, the cremated remains along with the identification tag are sealed in the permanent urn the family has chosen, or placed in a clearly labeled temporary container. The urn is ready for committal services, if any, or it may be picked up by the family, or delivered or mailed by us as instructed.

CASH ADVANCED ITEMS

Cash advanced items are not our fees but are fees that are associated with a funeral that we pay on behalf of the family. There are set fees that are billed to us after the funeral as well as items that are considered "gifts".

We have listed them below. While this list includes common Cash Advances, it does not (and cannot) include the prices for all the items that you may ask us to pay for on your behalf. The prices for these individual items will however be shown on your Itemized Statements.

Preparation of the Deceased

Embalming.....\$750.00

Embalming is the scientific preparation and sanitary care of the body by licensed professionals using universal precautions for the protection of public health. Except in certain special cases, embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, you usually have the right to choose an arrangement that does not require you to pay for it, such as direct cremation or immediate burial. All embalming is performed by our licensed professional staff or agents, who may on occasion be assisted by licensed interns and mortuary students to the extent allowed by law. For both public health and aesthetic reasons, it is our policy to require embalming when it becomes a practical necessity. Such necessity will be determined by the specific circumstances in each individual case.

Other Preparation of the Body

Traditional Burial - Preparation and care of deceased for viewing (Public or Private) includes, but not limited to, standard cosmetic care, dressing and casketing.....\$530.00

Cremation - Preparation and care of deceased for a private viewing prior to cremation includes, but not limited to, wash & disinfecting, feature setting, dressing (if requested) and casketing into selected cremation casket, container or funeral home preparation table. The viewing may take place in our care center for a maximum time of one (1) hour during business hours (8am-4pm). All adults wishing to have the viewing must be present during this time. Due to the circumstances that happen when a loved one dies, the private family view must be done within 24 hours of death. If this cannot be arranged within the 24 hour time period, or the family wishes to have other than immediate family attend, for the families benefit and public safety embalming will be arranged at a cost of \$750 as to preserve your loved one for viewing.\$500.00
